

AUGUST 2025 SPOTLIGHT

THIS MONTH AT VISION ILLUMINATION

CASE STUDY SPOTLIGHT: CRESCENT GARDENS, CLITHEROE

At Crescent Gardens retirement community, the original solar lighting system underperformed, raising concerns over safety and efficiency.

Following a site review, Vision Illumination identified key issues and replaced the system with our NANO Solar luminaires. Designed in the UK, these feature independently adjustable solar panels and light engines to maximise performance, powered by our advanced Titanvolt battery — fast-charging, durable, and reliable in all seasons.

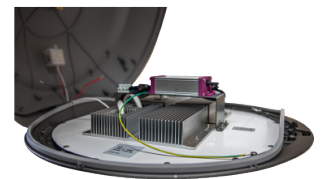

The result is a safe, sustainable off-grid solution that delivers long-term peace of mind. Easy to install and supported by a 10-year warranty, Crescent Gardens now benefits from lighting that meets both resident needs and environmental goals.

The full Clitheroe case study is available on our website.

EXPANDING OUR PORTFOLIO: CONTEMPORARY LUMINAIRES

We're excited to announce the launch of a new contemporary luminaire category within the Vision Illumination portfolio. We'll be starting with the Avenida and Viale lanterns, offering sleek, modern designs while maintaining the quality and reliability our clients expect. This expansion allows us to broaden our reach into contemporary lighting solutions, providing more options for projects that demand both performance and style.

PHOTOMETRY FILES UPDATED ON LIGHTING REALITY

We're pleased to announce that our photometry files have now been fully updated on Lighting Reality. Files are now available for our complete lantern range – including heritage fittings, streetlights, and off-grid solutions – across a wide variety of wattages and optical distributions.

These updates ensure designers and engineers can easily access accurate data to support scheme design and specification. The new files will go live during the week commencing 8th September.

If you would like any photometry files in the meantime we can send them directly, please contact us at info@visionillumination.com

TEAM UPDATES: FAREWELL TO BILLY, WELCOME BACK TONY

Billy Hutchinson

This summer brought some big changes at our distribution partner, Snapfast. In August, the team wished a very fond farewell to Billy Hutchinson, who retired after more than 25 years of dedication as Head of Operations and Customer Services Manager. Billy has been at the heart of Snapfast since 1998, known for his problem-solving skills, humour, and unwavering commitment — qualities that have left a lasting mark on colleagues and clients alike. We wish him all the best as he enjoys a well-earned retirement in his beloved Benidorm.

At the same time, we're delighted to welcome back Tony Bishop, who has re-joined Snapfast and will be working closely with us at Vision Illumination. Tony's experience and expertise make him a fantastic addition to the team, and we're looking forward to collaborating once again.

Tony Bishop
